Module 4: Detail View & Functionality (Week 4)

Objective:

To implement detailed campaign management features including dedicated view, editing, deletion, and donation processing.

Scope of Work:

1. Dynamic Routing
- Added /campaigns/:id route.

2. Campaign Management Endpoints
- GET, PUT, DELETE implemented.

3. Donation Feature
- Donation model, repository, service, and POST endpoint.

4. Frontend Detail Component
- CampaignDetail.jsx with donation form and edit/delete features.

Key Deliverables:

- Clickable campaign cards.
- Fully functional detail page.
